

On an Engineering, Photo or Computing course?

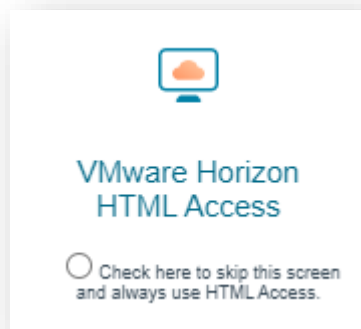

Need access to technical software for your course from home on your own device?

Software such as:

- Adobe Creative Cloud Full Suite
- Axure Pro 9
- AutoCAD 2020
- Automation Studio
- Audacity
- Microsoft Project
- Microsoft Visio
- Fusion 360

All these applications are available on the new Virtual Desktop system

Go to <https://horizon.sandwell.ac.uk/> and click here

Log in with your College ID number and usual password and then click **Student PCs**

You will then be taken to a virtual machine running much of the software you use on your course – you will also be able to save documents and files to your personal storage area, your H drive, just like being in college.
